Notice Board

SAFETY INSTRUCTIONS

- Inspect tools before using them.
- Make sure there's enough light.
- Do not pull your chair forward or toward while operating the machine.
- If the equipment does not operate properly, notify the instructor immediately.
- Keep Fingers clear of Needle.
- Tie long Hair Back.
- Don't sew across pins. As a pin nears the presser foot, stop the sewing machine long enough to remove the pin.
- Make only adjustments you have been trained to perform.
- Pay attention to the way your sewing machine sounds.
- Always inspect the machine before starting to work. Be sure it is clean and threaded correctly, with no loose threads on the pulley belt and all guards in place.
- Operate only the machines you have been trained to operate and when the instructor or supervisor/ assistant is present.
- When in doubt, ask the instructor.
- Return tools to their storage places after use & maintain properly.
- Tell the instructor if something breaks or stops working.

ASK for HELP if Needed
